INSTRUCTIONS FOR HOME OWNERS BUYING NEW AIR CONDITIONING UNITS: EFFECTIVE MARCH 29, 2021

There are important Mohave Roofing tasks which must be accomplished at the same time new air conditioners are being installed.

When owners decide to buy a new AC, Dave Still, our maintenance manager, 928-453-6759, must be notified. Dave will notify Mohave the name of the AC company and those folks will establish a mutually agreeable date and time for the installation.

This procedure is critical to our Association's responsibility to maintain the integrity of our foam roofs for all our homeowners. Dave Still will conduct a final inspection after the AC installation.

Homeowner's Board of Directors, Jack Iversen, President
